

Product datasheet

Cisowianka Water, highly-sparkling, can, 330ml

Coming from a renowned spa region, known for its unique microclimate, the approximately 400-year-old Cisowianka in the highly sparkling version has been enclosed in a can
It was created for those who need strong refreshment and an intense sensation of carbonation on the palate
Its carbonation level is 30% higher than the level used in the core Cisowianka sparkling version
The new packaging makes it easier to chill the product, significantly reducing cooling time, making it an ideal choice for quenching thirst, especially on summer days
Additionally, the can is perfect for supplying clubs and food trucks, as well as for use on board aircraft and in all places where glass should not be used
The small, non-breakable can of Cisowianka highly sparkling fits perfectly in both a handbag and a large backpack
Capacity: 330 ml

CISOWIANKA
