

Product datasheet

Mineral water KINGA PIENIŃSKA, sparkling, 1,5l, deposit

Kinga Sparclino is a premium-class naturally sparkling mineral water sourced from springs located near Muszyna, in the heart of the Sądecki Beskid and within the Poprad Landscape Park. This region is famous for exceptionally pure mountain waters, and its stable carbonation level makes Kinga Sparclino ideal as an everyday mineral water for drinking at home, at work, in gastronomy or while travelling.

During its natural filtration path, the water flows through geologically rich rock layers, which enrich it with valuable minerals such as calcium, magnesium and potassium.

Regular consumption of Kinga Sparclino sparkling mineral water helps supplement the daily diet with important minerals and supports the proper functioning of the body.

Naturally carbonated mineral water saturated with CO₂, low-mineralized, subjected to aeration and filtration processes, partially decarbonated.

Nutritional values:

Cations [mg/l]: calcium (Ca²⁺) 43.40; magnesium (Mg²⁺) 23.33; potassium (K⁺) 2.50; sodium (Na⁺) 9.23

Anions [mg/l]: bicarbonates (HCO₃⁻) 236.20; sulphates (SO₄²⁻) 27.08; chlorides (Cl⁻) 17.40; fluorides (F⁻) 0.008

Total mineral content: 387.20 mg/l

Capacity: 1,5l
