

**Product datasheet**

**Ballpoint pen LAMY Xevo 262, M, with black refill, black**

LAMY xevo is an entry model into the world of LAMY design: the balanced body impresses with its imperceptible transition from a triangular grip shape to a circle

It is completed by a concave-shaped metal spring clip

The smooth twist mechanism and soft writing thanks to the high-capacity LAMY M 16 refill are two more reasons why LAMY xevo is so popular among demanding, frequent writers: the combination of outstanding design and technical perfection reflects all the features of a typical LAMY writing instrument

A twist-action ballpoint pen made of contoured plastic with an imperceptible transition from triangle to circle

With a metal spring clip

Design: Eric Degenhardt studied architecture at RWTH Aachen. Guided by his ideas about space and architecture, it was a logical step to move from large projects to smaller ones. After spending some time in London, he focused on furniture and industrial design. Since opening his studio, he has designed furniture, electronic products and architectural spaces for international clients. More works by this designer: LAMY xevo. Awards: PlusXAward, iF Industrie Forum Design, red dot Design Award

Dimensions (W x H x L): 11 x 14 x 143 mm

Weight: 20 g

Color: black
