

Product datasheet

Hand cleaning paste DEB Solopol, tube, 250ml

Heavy-duty hand-cleaning paste designed to remove severe industrial soiling, supplied in a convenient tube

Suitable for use in industrial environments

Effectively removes water-based paints, heavy oils, grease, lubricants, soot, resins and other deeply ingrained soiling

Patented solvent-free formula provides a high level of cleaning performance normally associated with solvent-based heavy-duty cleaners

Unique surfactant system penetrates, lifts and dissolves soiling while helping minimise its redeposition on the skin

Contains Astopon® – a natural scrubbing agent made from refined walnut shell powder for deep cleaning

Scrubbing agent rinses away easily with water, helping prevent drains and pipes from becoming blocked

Contains emollients that help prevent the skin from drying out and leave hands feeling smooth after use

Low-pH formula of 4.0–5.0 helps minimise disruption to the skin's natural acid mantle

Mild preservative helps reduce the risk of skin irritation during use
Dermatologically tested; independent testing confirmed that the product does not cause irritation during use

Silicone-free formula helps minimise silicone compatibility issues on surfaces before applying paint or surface coatings

Compatible with rubber manufacturing processes; independent testing confirmed that it does not adversely affect the vulcanisation process

Product with EU Ecolabel certification confirming its reduced environmental impact

Directions for use: apply one dose directly to dry, soiled hands, rub to loosen the soiling, add a small amount of water and continue washing, then rinse thoroughly and dry the hands

Intended for use on the hands and wrists by persons over 16 years of age

Capacity: 250 ml

Fragrance: lightly fragranced

Basic product parameters

PBS reference	HG-352816
