

Product datasheet

Toilet gel discs DUCK Fresh Discs Lime, with holder, 6 pcs.

Starter kit containing a holder and 6 concentrated gel discs designed to freshen and help keep toilet bowls and urinals clean. The gel disc adheres directly to the inner surface of the toilet bowl, eliminating the need for a traditional toilet rim block holder. With every flush, it helps freshen the toilet and prevent the build-up of limescale and inorganic stains.

The formula leaves a flush-activated protective shield on the toilet bowl surface to help prevent limescale formation.

Provides even distribution of the gel as water flows over the disc. Lime fragrance provides around-the-clock freshness for the toilet bowl and room when the toilet is used regularly.

A tube containing 6 discs lasts for up to 630 flushes.

Can be used together with DUCK biodegradable toilet gel to extend the effect of fresh cleanliness.

Directions for use: align the large button on the gel container with the holes in the holder, remove and retain the cap, place the transparent end of the container against the inner surface of the toilet bowl where water flows during flushing, press and hold the button while pushing the applicator against the bowl until it clicks, then pull it straight back from the surface.

After application, close the container tightly and flush the toilet to activate the gel disc.

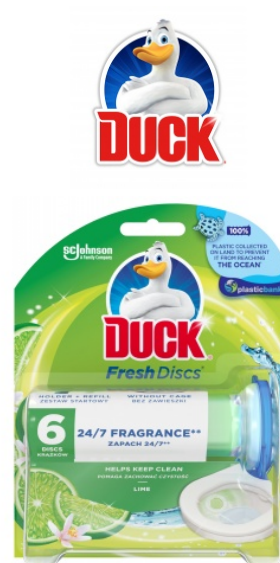

After applying the final disc, remove the empty gel container and retain the holder for refilling.

PH: 5-6 in a 1% solution at 25°C

Set contents: holder and 6 discs

Fragrance: lime

Color: green
