

Product datasheet

Foam soap dispenser DEB Quick-View, 1l, transparent/white

Manual wall-mounted dispenser designed for closed 1 l SC Johnson Professional foam soap cartridges

Suitable for use in washrooms in offices, schools, nurseries, public facilities, healthcare facilities and elderly care facilities

Transparent Quick-View™ sides provide visibility of the cartridge from different angles and allow the product level to be checked without opening the dispenser

Large push button reduces the force required to operate the dispenser and enables convenient use by hand or elbow

Dispenses a measured amount of product, helping to reduce excessive product consumption and waste

Dispensing button protected with BioCote® technology, which provides antimicrobial protection and helps inhibit the growth of a broad spectrum of bacteria and mould

BioCote® antimicrobial protection remains effective throughout the service life of the button

Secure locking mechanism helps protect the cartridge against unauthorised access, theft and product contamination

Design enables replacement of an empty cartridge within seconds, helping to reduce maintenance time and costs

Hygienic sealed cartridge and pump system limits air ingress and the risk of product contamination during use

Sealed cartridge collapses as it empties, helping to minimise residual product and waste

Dispenser made from durable plastic components and designed for intensive use

HACCP International certification confirms that the dispenser is suitable for use in areas associated with food production and preparation; the dispenser is not intended for direct contact with food

Covered by a lifetime guarantee when used exclusively with SC Johnson Professional products and in accordance with the manufacturer's terms

Compatible cartridges: HG-014588, HG-014601, HG-019583, HG-025119, HG-026468, HG-026482
