Product datasheet

Fountain pen PLATINUM Curidas, EF, graphite smoke

Platinum fountain pen from the Curidas collection is definitely different from many traditional fountain pens.
Curidas is a combination of the Japanese word Kuridasu, referring to extending the pen tip, and the word Curiosity.
This new fountain pen was created to satisfy people's curiosity.
The push-button nib extension mechanism is very convenient.
The pen is instantly ready to use, without the need to remove a cap.
Another click retracts the nib and, when it is in this position, a sealed nib chamber made of soft material ensures airtightness.
The specially designed clip, which can be easily removed, does not interfere with writing.
The transparent resin allows you to see the inside of the pen.
Curidas is the ideal pen for people who appreciate interesting technical solutions.
Nib made of stainless steel, writing line width EF (extra fine).
The fountain pen is presented in an elegant branded box. It comes with an ink cartridge to start with.

Basic product parameters

PBS reference	PLA-PKN7000 -7EF
Barcode	4977114113659
Product name	Fountain pen PLATINUM Curidas, EF, graphite smoke
Category	Fountain pens
