Product datasheet

Fountain pen PLATINUM Procyon Luster Black Maki-e Cranes Over Moon, F, black

Platinum Procyon Luster Cranes Over Moon combines a traditional pattern with contemporary style.
The modern maki-e design refers to the “Rimpa” style, which is one of the artistic forms of Japanese painting.
Cranes have long been valued in Japan as a symbol of happiness and have been used since ancient times on various objects and kimono patterns.
The fountain pen is made of perfectly balanced aluminium and features the “Slip & Seal” mechanism, which ensures smooth writing at any time thanks to the cap being sealed with a special inner cap.
It is equipped with a pentagon-shaped nib, introduced in 1962, and uses the original Platinum cartridge/converter filling system.
The Platinum Procyon fountain pen takes its name from the brightest star in the Canis Minor constellation.
The silver satin-finished aluminium body provides excellent balance and fits perfectly in the hand.
Screw-on cap.
The fountain pen features a dual filling system: an ink cartridge interchangeable with a converter.
The fountain pen is packed in an elegant branded box.

Basic product parameters
