Product datasheet

Fountain pen PLATINUM Procyon, M, porcelain white

The Platinum Procyon fountain pen takes its name from the brightest star in the Canis Minor constellation.
The white aluminium body provides excellent balance and fits perfectly in the hand.
The Procyon fountain pen uses the “Slip & Seal” mechanism, which ensures smooth writing at any time and prevents the ink in the pen from drying out.
The specially designed feed helps fill the pen when only a small amount of ink remains in the bottle, without the need to immerse the entire nib.
Nib made of stainless steel, writing line width M (medium).
Screw-on cap.
The fountain pen features a dual filling system: an ink cartridge interchangeable with a converter.
The fountain pen is packed in an elegant branded box.

Basic product parameters

PBS reference	PLA-PNS5000-3M
Barcode	4977114112799
