Product datasheet

Fountain pen PLATINUM Procyon Shadow Mica Black, F, black

Fountain pen from the Japanese brand Platinum from the Procyon Shadow Mica Black collection.
Platinum Procyon Shadow Mica Black combines a traditional pattern with contemporary style.
Shadow Mica Black is a new interpretation of the classic black colour, achieved through a special coating that gives it a distinctive metallic sheen.
The fountain pen is made of perfectly balanced aluminium and features the “Slip & Seal” mechanism, which ensures smooth writing at any time thanks to the cap being sealed with a special inner cap.
It is equipped with a pentagon-shaped nib, introduced in 1962, and uses the original Platinum cartridge/converter filling system.
The Platinum Procyon fountain pen takes its name from the brightest star in the Canis Minor constellation.
The satin-finished aluminium body provides excellent balance and fits perfectly in the hand.
The cap is screw-on.
The fountain pen features a dual filling system: an ink cartridge interchangeable with a converter. The fountain pen is packed in an elegant branded box.

Basic product parameters

PBS reference	PLA-PNS5000-1F
