Product datasheet

Fountain pen PLATINUM Procyon Carmine Red, F, red

Fountain pen from the Japanese brand Platinum from the Procyon Carmine Red collection.
Platinum Procyon Carmine Red combines a traditional pattern with contemporary style.
Carmine Red is a new interpretation of the classic red colour, achieved through a special coating that gives it a distinctive metallic sheen.
The fountain pen is made of perfectly balanced aluminium and features the “Slip & Seal” mechanism, which ensures smooth writing at any time thanks to the cap being sealed with a special inner cap.
It is equipped with a pentagon-shaped nib, introduced in 1962, and uses the original Platinum cartridge/converter filling system.
The Platinum Procyon fountain pen takes its name from the brightest star in the Canis Minor constellation.
The burgundy satin-finished aluminium body provides excellent balance and fits perfectly in the hand. The cap is screw-on.
The fountain pen features a dual filling system: an ink cartridge interchangeable with a converter. The fountain pen is packed in an elegant branded box.

Basic product parameters

PBS reference	PLA-PNS5000-10F
